**NOTED FENIAN DEAD.**

NEW YORK, Feb. 19.—News is given out of the death on Feb. 3, of Colonel Thomas F. Kelly, a leader of the Fenian uprising in Ireland in 1867. His death was kept quiet by his friends who feared the publicity which his former deeds would bring to the family. Kelly was born in Ireland in 1833 and came to America at an early age. At the outbreak of the Civil War he enlisted in the Tenth Ohio and was elected to a captaincy. He later served on Gen. Thomas' staff. After the war he went to Ireland and became a chief of staff to James Stephens, the famous Fenian leader. With Captain Deasey he was arrested and charged with treason. While being conveyed from prison to court in an old-fashioned prison van in Manchester, the van was attacked by a fenian band and the prisoners released. In the attack a police sergeant was killed and a number of the attackers who were captured were punished for the killing, three of them being executed. Kelly returned to America and for the last twenty-five years has been connected with the customs service in New York.

We have the only treatment that is a cure for the dreaded Bright's Disease, Diabetes, and all other forms of Kidney and Bladder Troubles. RHEUMATISM is caused by an excess of uric acid in the blood. **What Causes Rheumatism**

Now we say that the only medicine known that will actually dissolve this Uric Acid and carry it out of the body is Herington's Tablets. Local applications such as liniments, electricity, massage, etc., will afford temporary relief only, and is time wasted to the injury of the patient, unless constitutional treatment is carried on at the same time. Why? Because the malady is a disease of the blood, and the blood must be freed of the cause—or no cure can follow.
